PROFESSIONAL PROFILE

Computer Engineering and Informatics graduate with practical experience in full-stack web development, mobile applications, technical support and troubleshooting. Worked with TypeScript, JavaScript, Python, React, Next.js, Node.js, Microsoft Power Apps and relational databases in academic, professional and personal projects. Currently completing a Master's Degree in Applied Informatics, with a thesis focused on explainable and reproducible Machine Learning applied to ALS prognosis.

PROFESSIONAL EXPERIENCE

Teaching Assistant, Introduction to Programming

Escola Superior de Gestão e Tecnologia de Santarém, Universidade Politécnica de Santarém

09/2024 – 02/2025

Santarém, Portugal

- Supported the delivery of the Introduction to Programming course, helping students understand fundamental programming concepts.
- Provided practical support in algorithms, Python, variables, operators, propositional logic, conditional statements, loops, arrays, matrices and exception handling.
- Assisted students with exercises, clarified doubts and supported their learning progress.

Software Developer Intern, 250 hours

Pensamento Binário, Lisboa

06/2024 – 07/2024

Lisbon, Portugal

- Developed a React/Vite.js dashboard for condominium management, focused on administration, tenant communication and request tracking.
- Implemented features for receiving and managing tickets, including space reservations, maintenance issues and service requests.
- Developed components for data consultation, payment management support and user experience improvement.
- Collaborated on code documentation and continuous improvement of the application.

Mobile Application Developer Intern, 750 hours

Pensamento Binário, Lisboa

03/2022 – 07/2022

Lisbon, Portugal

- Developed and maintained a Microsoft Power Apps application for Go Partners, designed to manage the operational workflow of car wash services.
- Created screens and features adapted to different user profiles, including reception staff and car wash operators.
- Implemented a workflow for vehicle check-in, service selection, urgency indication and tracking of each vehicle's status.
- Migrated and organized data in Microsoft SQL Server, ensuring application support and improved information management.
- Gathered requirements from the dealership manager, implemented requested improvements and resolved technical issues.

Graphic Design and Multimedia Intern

Terra das Ideias, Benavente

2016 – 2018

Benavente, Portugal

- Created and edited graphic and audiovisual content for promotional materials.
- Used Adobe Photoshop, Illustrator, Premiere Pro and After Effects to produce posters, banners, videos and communication materials.

PROJECTS

Job Application Tracker 🔗

07/2026 – Present

Next.js, TypeScript, React, Tailwind CSS, Supabase, PostgreSQL, Vercel

- Developed a full-stack web application for managing job applications, companies, recruiters, interviews and follow-up tasks in a centralized workflow.
- Implemented authentication and user-specific data management using Supabase Auth, PostgreSQL and Row Level Security (RLS).
- Built responsive dashboards, advanced search and filtering, application status tracking, interview management and task organization, and deployed the application on Vercel.

Master’s Thesis, Machine Learning for ALS Prognosis

Python, Jupyter Notebook, Machine Learning, Explainable AI, Reproducibility

- Developed Machine Learning models for functional progression classification and survival prediction in ALS.
- Focused on explainability, experimental reproducibility, code organization and result analysis.
- Structured notebooks, scripts and outputs to support result replication and documentation of the experimental process.

EDUCATION

Master’s Degree in Applied Informatics

Escola Superior de Gestão e Tecnologia de Santarém, Universidade Politécnica de Santarém

Thesis pending presentation: Explainable and Reproducible Machine Learning for ALS

Prognosis: Functional Progression Classification and Survival Prediction

10/2024 – Present
Santarém, Portugal

Bachelor’s Degree in Computer Engineering

Escola Superior de Gestão e Tecnologia de Santarém, Universidade Politécnica de Santarém

Completed

09/2025 – 06/2026
Santarém, Portugal

Bachelor’s Degree in Informatics

Escola Superior de Gestão e Tecnologia de Santarém, Universidade Politécnica de Santarém

Completed

2022 – 2024
Santarém, Portugal

Higher Professional Technical Diploma in Information Systems Technologies and Programming

Escola Superior de Gestão e Tecnologia de Santarém, Universidade Politécnica de Santarém

Completed

2020 – 2022
Santarém, Portugal

Professional Course in Multimedia

Agrupamento de Escolas de Salvaterra de Magos

2015 – 2019

TECHNICAL SKILLS

JavaScript · TypeScript · Python · Java · PHP · SQL ·
HTML5 · CSS3 · React · Next.js · Vite.js · Node.js ·
Express.js · Tailwind CSS · Laravel · Supabase ·
PostgreSQL · Microsoft SQL Server · MySQL · Microsoft
Power Apps · Power BI · Power Automate · Git · GitHub ·
Vercel · Docker · Visual Studio Code · Jira · Ubuntu

LANGUAGES

Portuguese
Native

English
Advanced

CERTIFICATIONS AND COURSES

SAP ABAP Overview

Escola Superior de Gestão e Tecnologia de Santarém | University of Debrecen

05/2023

Online Course in 2D RPG Game Programming

Udemy

01/2019 – 07/2019

ADDITIONAL SKILLS

Technical troubleshooting · User support · Requirements gathering · Technical documentation · Stakeholder communication · Teamwork · Continuous application improvement
